

## **EXECUTIVE ORDER D-562-76**

Relating to Exemptions under Section 27156 and 38391  
of the Vehicle Code

Valina, Inc. (d.b.a. Car Tex)  
"Series 207000 and 208000 Three-Way Catalytic Converters"

WHEREAS, Vehicle Code (VC) Sections 27156 and 38395, and Title 13, California Code of Regulations (13 CCR) Section 2222(h), authorize the California Air Resources Board (CARB) and its Executive Officer to exempt new aftermarket catalytic converters from the prohibitions of VC Sections 27156 and 38391.

WHEREAS, Valina, Inc. (Valina) of 4560 Worth Street, Los Angeles, California 90063, has applied to CARB for exemption from the prohibitions in VC Sections 27156 and 38391 to market its aftermarket Series 207000 and 208000 three-way catalytic converters (TWCs) for installation on selected 1998 through 2007 model year passenger cars (PC) and light-duty trucks [0-3750 lbs. LVW] (LDT1) equipped with On-Board Diagnostic II (OBD II) systems as listed in Appendix D-562-76. The catalytic converters will be sold as a universal or direct fit system.

WHEREAS, pursuant to the authority vested in the Executive Officer by Health and Safety Code Section (HSC) 39515 and in the Chief, Emissions Certification and Compliance Division by HSC Section 39516 and Executive Order G-19-095, CARB finds that the above aftermarket catalytic converters comply with the VC Sections 27156 and 38395 and 13 CCR, Section 2222(h). Emission performance of the catalytic converters was based on durability bench-aging by Umicore Autocat USA Inc. using the CARB-modified RAT-A bench-aging cycle for 75 hours, as specified in Appendix A to the "California Evaluation Procedures for New Aftermarket Catalytic Converters" as amended on September 28, 2017 (Converter Evaluation Procedures).

WHEREAS, previous emissions and OBD II compatibility tests conducted by Valina using a vehicle weight classification and exhaust configuration similar to those listed in Appendix D-562-76 and certified to Low Emission Vehicle 1 Ultra Low Emission Vehicle emission standards resulted in the issuance of Executive Order D-562-75 showed that the vehicle met the applicable emission standards with Series 207000 and 208000 TWCs installed. OBD II compatibility tests performed on the same test vehicle showed that Series 207000 and 208000 TWCs did not affect the vehicle's ability to perform OBD II system monitoring.

WHEREAS, evaluation of Series 207000 and 208000 TWCs using the procedures and criteria specified in Section (e)(5)(B) of the Converter Evaluation Procedures showed that the catalytic converters meet the requirements for proper MIL illumination demonstration.

THEREFORE, IT IS HEREBY RESOLVED that Valina's 207000 and 208000 TWCs are exempted from the prohibitions in VC Sections 27156 and 38391 for installation on the approved vehicle applications specified in Appendix D-562-76 subject to the following conditions:

1. No changes are permitted to the catalytic converters as described in the application for exemption. Any changes to the catalytic converters or any of their components, and other factors addressed in this order must be evaluated and approved by CARB prior to marketing in California.
2. Marketing of the catalytic converters using identifications other than those shown in the exemption application, and in this Executive Order, or marketing of the catalytic converters for applications other than the ones shown in this Executive Order shall be prohibited unless prior approval is obtained from CARB. Exemption of this product shall not be construed as an exemption to sell, offer for sale, or advertise any components of the catalytic converters, as individual devices.
3. Any oral or written references to this Executive Order or its content by Valina, its principals, agents, employees, distributors, dealers, or other representatives must include the disclaimer that the Executive Order or the exemption it provides is not an endorsement or approval of any emission reduction claims for the catalytic converters and is only a finding that the catalytic converters are exempt from the prohibitions of VC Sections 27156 and 38391.
4. Valina's installation instructions for the new catalytic converters must conform to requirements in Section (h) of the Converter Evaluation Procedures.
5. Installation of the catalytic converters shall not cause the relocation of an oxygen sensor. Oxygen sensors must be installed in the same location, position and orientation as prescribed in the original equipment manufacturer's configurations.
6. Upon installation, the catalytic converters must carry a manufacturer's warranty for five years or 50,000 miles as prescribed in Section (f)(2) of the Converter Evaluation Procedures.
7. Valina and its vendors may not advertise the new aftermarket catalytic converters as a "high flow or easy flow" catalytic converters or use any phrase that could make them appear to perform better than the original equipment manufacturer catalytic converters.
8. Any marketing arrangement of the new aftermarket catalytic converters by a third party, which involves the use of packaging identification different from the ones described in this Executive Order, must be approved by CARB prior to shipment.
9. Valina, its associates, vendors, other businesses, and individuals associated with Valina, may not sell or supply new aftermarket catalytic converter substrates to a third party to be assembled in a different facility and marketed under this Executive Order without approval from CARB.

10. Valina shall comply with the quality control procedures and reporting requirements in Section (f)(5) of the Converter Evaluation Procedures.
11. Quality control reports must be submitted on a quarterly basis and warranty information reports must be submitted on a semi-annual basis.
12. Valina must provide a permanent label or stamp as specified under Section (f)(1) of the Converter Evaluation Procedures.
13. Valina's vehicle application catalog must conform with the requirements as specified under Section (f)(4) of the Converter Evaluation Procedures.
14. Catalytic converters exempted under this Executive Order may not be installed on a vehicle unless the vehicle is beyond the coverage of the original equipment manufacturer catalytic converter warranty period.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a 30-day written notice of intention to revoke it, during which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within 30 days of receipt of the request, and the order may not be revoked until a determination is made, after the hearing, that grounds for revocation exist.

Executed on this 17<sup>th</sup> day of May 2021.

Allen Lyons, Chief  
Emissions Certification and Compliance Division
